7. A data-retrieval type question that seeks answers in the form of facts (who, when, why, what) or basic explanation as to how and who

A. Specific search
B. Ready-reference questions
C. Bibliographic verification
D. Research question

8. A user's request for information
A. Given
B. Wanted
C. query statement
D. information need

9. A component of the user's request for information which is the subject or topic of the request
A. Descriptor
B. Given
C. wanted
D. subject heading

10. This service provides a list of persons, agencies and organizations offering information service within a community.
A. Information retrieval
B. Information and Referral
C. Collaborative reference
D. Digital reference

11. The first public library to offer reference service
A. Library of Congress
B. Boston Public Library
C. Columbia College
D. Harvard University

12. What is an *emu*? Is an example of what type of query?
A. Directional
B. Ready Reference
C. Specific Search
D. Research

13. This is the stage in the reference interview where the reference librarian confirms if the answer that was provided matches the need of the library client.
A. Follow-up
B. Query negotiation
C. Greeting
D. Searching

14. If a user asked: "Where are the fiction books?" What do you call this type of query?
A. Directional
B. Ready Reference
C. Specific Search
D. Research

15. What do you call this type of query: *"Are the conditions prevailing in many parts of the Philippines today conducive to peace and order?"*
A. Directional
B. Ready Reference
C. Specific Search
D. Research

16. James I. Wyer developed a theory of reference service which became the basis of the different levels of providing reference service in the library. Which of the following is his theory?
A. Minimum, middling maximum
B. Liberal, middling, maximum
C. conservative, moderate, liberal
D. conservative, median, exhaustive

17. Samuel Rothstein also developed a theory of reference service. Which of the following levels is his theory?
A. Minimum, middling maximum
B. Liberal, middling, maximum
